

## Endless Thrills with the Magnetix iCoaster

If you've ever thought about designing and building your very own roller coaster, here's your chance. The Magnetix iCoaster is a building set and experience that allows architects to design and execute every and any roller coaster design that's possible. With twisting turns and loops, this building set is going to be one of the most exciting things to hit in the Magnetix building set series. They started with basic building sets and have started to top off the series with this iCoaster building set. Rest assured, they have a lot more action to come!

### Detailed Description:

Build and rebuild the very first magnetic roller coaster complete with drops, jumps, loops and your own DJ mixes for stunning sights and sounds! iCoaster isn't just another toy; it is an impressive, state-of-the-art, multi-sensory joy ride. iCoaster combines sight, sound and speed with extreme magnetic force, high-tech design and some ultra-cool physics.

Build 10 suggested thrilling coaster configurations or apply your own creativity for infinite more designs. Assembling the towers, tracks, sensors, stunts and magnetic elevator is easy, clean, fast and exciting. Place the sensors along tracks, turn on the "Sound FX Music Studio" and create your mix of tunes and effects. You can also plug in your iPod or MP3 into the "Sound FX Music Studio" for your own music selections. Set magnetic balls on the track, crank up the volume and enjoy a ride filled with hyper stunts and adrenaline rushes. Stunts include a Magnetic U-turn, Trampoline, 360° Loop, Magnetic Bridge, 360° Spin and Helicoid Twist and Turn.

- Trippy magnetic elevator
- "Sound FX Music Studio" with speaker and over 200 distinct musical combinations (compatible with iPods and MP3s players)
- 2 light-up sensors
- 6 hyper stunts
- 17 smooth tracks
- 10 slick, adjustable towers
- 5, 15mm magnetic metallic rider balls (compatible with all Magnetix sets)
- 64 pieces total
